

# SPIRIT Investigation Planner

## Planning and Conducting

<b>Objects I have chosen to view with SPIRIT:</b>	<b>These objects are good targets because:</b>
---------------------------------------------------	------------------------------------------------

### My viewing plan

Object	Coordinates	Best viewing time	Filters	Exposure Time

**Reasons I chose my filter:**

**Reasons I chose my exposure time:**

## Evaluating

**Things that worked well in my imaging:**

(e.g. exposure time, detail, darkness of the sky)

**Things that didn't work well in my imaging:**

(e.g. exposure time, light pollution, size of the object)

**Next time I would:**

(e.g. longer or shorter exposure time, different object, different time of the night, avoid imaging during a full moon)
